STATEMENT ON SUBSTANCE OF INTERVIEW

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The following is a Statement of the Substance of an Interview held on May 31, 2007 in the above-referenced application.

Applicants' attorney telephoned the Examiner on May 31, 2007 and discussed the claims, FIG. 3 of Wildenrath, and FIG. 2 of our application. The Examiner asserted that Wildenrath FIG. 3, element 14, disclosed a photosensitive element for detecting transmitted UV (radiation that excites fluorescent particles), and asserted that element 8 was a photosensitive element for detecting emissions from the fluorescent material. The Applicants' attorney asserted that Element 14 was merely intended to perceive cracks or seams, as discussed at page 2, lines 29-36 of Wildenrath.
